CJ Vanderbeck

EST. 1914
and Son, Inc.

THE FULL SERVICE BOILER PEOPLE

In 1914 Cornelius Vanderbeck, a blacksmith and boiler mechanic began repairing boilers in the garage of his family home.

Concentrating on repairing industrial and commercial coal-fired boilers, Vanderbeck soon started his own company servicing and installing these boilers. Pictured above is the truck in which Vanderbeck made service calls. (photo: circa 1920)

C.J. Vanderbeck cleans boilers like no others, utilizing a highly effective truck mounted power vacuum system.

With over 18,000 square feet of shop and office space, a 5 ton overhead crane, new fabricating equipment and easy access to major roadways, C.J. Vanderbeck will continue to have the capability to meet the challenges of tomorrow!

Today this family run company continues to pay attention to quality, detail and service as Cornelius inspired 100 years ago.
